France mandates green roofs!

Amazing news from France! The French parliament recently passed a new law requiring all new commercial buildings to have plants or solar panels on their roofs. More specifically, the government decided that all new roofs must be partially covered (to at least 30 per cent) with greenery, while activists are striving for 100% coverage in the next few years. Find out more at: <https://thefifthestate.com.au/urbanism/planning/france-mandates-green-roofs-time-for-oz-to-look-at-the-pacesetters/>
